EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Marlin Knight on 10/16/04 and 10/18/04.

The application has been amended as follows:

In the claims

Claim 1, line 3, "or nanocrystalline" has been deleted.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the present claims are allowable over the closest prior art to Abarra et al. (US 6613460) and JP 10-041134.

Abarra et al. fail to teach or suggest an amorphous CrTiAl alloy as required by claims 1-4. The reference only teaches a crystalline CrTiAl alloy and the prior art fails to suggest a motivation to replace this crystalline layer with the claimed amorphous layer. Furthermore, Abarra et al. fails to teach or suggest a structure having a CrTiAl layer with a RuAl thereon.

JP 10-041134 fails to teach or suggest a structure having an amorphous or crystalline CrTiAl pre-seedlayer having at least one seed layer and at least one underlayer thereon.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Holly Rickman whose telephone number is (571) 272-1514. The examiner can normally be reached on Monday-Friday 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Deborah Jones can be reached on (571) 272-1535. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
